PIOs -

A SharePoint site has been set up for EPA communications folks to exchange information on the Gold King Mine Release. This SharePoint can be used to review draft documents, and save updates/releases in one location for future reference. Also, there is discussion feed on the site. Unfortunately, I've learned that this site cannot be accessed by iPhone.

I've added everyone who has been invited as an owner, so you can change the structure of the site and invite other EPA employees if needed. Please let me know if you need me to make any changes.

Thanks,

Jennifer  
303-312-6334
